DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. All variables in each claim must be defined. Regarding claims 1-52, the variables $llrR_{ml}$ and $llrQ_{lm}$ must be defined. The specification defines the acronym llr as “log-likelihood ratio” on page 19, lines 8-12. This definition must be recited in the claim. In claims 3, 15, 28, 4, the variable “s” must be defined. Regarding claims 4, 16, 29, and 42, the variable $llrP_1$ must be defined. The specification defines the acronym llr as “log-likelihood ratio” on page 19, lines 8-12. This definition must be recited in the claim. Regarding claims 9-12, 21-25, 34-38, and 47-52, the variable $llrAPP_1$ must be defined. The specification defines the acronym llr as “log-likelihood ratio” on page 19, lines 8-12. This definition must be recited in the claim. The specification also defines the acronym APP as a posteriori probability on page 17, line 29. This definition must also be recited in the claim.
